Session 101 F	-	SMTWTFS	/	p 1-112	ASA Water Test

We have been an American Sailing Association certification facility since 1983. We teach the more advanced A.S.A. courses at other locations available to us. Certification is possible for every course we teach (ASA 101, 103, 104, 105, 106 & 110 take a look at www.asa.com for details). This certification is recognized by most worldwide boat rental and charter companies. Sometimes your boat insurance company recognizes your certified sailing skills and reduces your insurance premiums accordingly.

If severe weather changes this schedule, your instructor will notify you at least one hour before the class starts. If students need to reschedule, in less than 48 hours, a \$50 rescheduling fee is charged to compensate the instructor. Sailing lessons can be taught on other boats by paying the instructor \$200/day and reimbursing traveling expenses. Prices can change without notice. We accept all major credit cards.
